# Efficient Client Management

Zoho Practice tackles the challenges of client management head-on, offering a suite of features designed to save you time and keep your clients engaged.

## Onboarding Made Easy

No more wasting time manually setting up new clients. Zoho Practice seamlessly onboards existing clients from your Zoho Books, Payroll & Expense organizations. For new clients, creating a new organization across Zoho Finance applications like Books, Expense, and Payroll takes just moments.

## Streamlined Communication & Collaboration

Communication is key to building strong client relationships. Zoho Practice centralizes all client communication – emails, comments, tasks, and documents – in one dedicated space. This eliminates the need to search through scattered emails and ensures everyone on your team can access the latest information. Plus, automated reminders and client requests ensure you receive the information you need on time, every time.

## Assigning Staff & Tasks

Assign staff to clients with clear roles and responsibilities. Tag teammates on client emails for quick assignments, ensuring everyone is on the same page. Utilize task templates to create consistent and efficient workflows, saving you time on repetitive tasks.

## Client Insights & Book Reviews

With Zoho Practice's integration with Zoho Books, you can gain real-time insights into your clients' businesses. Identify and resolve data irregularities to ensure strategic success. Monitor client cash flow, outstanding debts, and key financial metrics to proactively address any potential issues.

We have watched Zoho evolve through the years from applications like CRM to Books to the full suite of Zoho One. The latest addition of Zoho Practice makes the entire Zoho platform more useful to accountants by providing access to multiple clients. Further, managing multiple team members is simplified. Zoho Practice is the extra boost your practice needs to recommend and use Zoho widely.

## Clear picture of your clients' financial health

Proactive advisory services are becoming increasingly important for building stronger client relationships and driving growth. Zoho Practice's Client Insights Module empowers you to achieve just that by providing a centralized hub for insightful financial data about your clients' businesses.

- **Identify Opportunities, Mitigate Risks:** Gain a comprehensive view of your clients' financial health, allowing you to identify areas for improvement and potential risks before they escalate.
- **Empower Informed Decision-Making:** Provide your clients with the data and insights they need to make informed financial decisions that drive growth and profitability.
- **Build Stronger Client Relationships** Proactive insights demonstrate a deeper understanding of your clients' businesses, fostering trust and strengthening your partnerships.
- **Real-time Financial Insights:** Gain a clear picture of your client's financial health for accurate business forecasting with a 360-degree view of your client data, including filing deadlines, and timely notifications to keep you on track. This eliminates last-minute filing scrambles and allows you to focus on providing exceptional service.

# Seamless Task Management

Zoho Practice keeps your team on top of deadlines and tasks, eliminating the chaos and missed deadlines often associated with traditional methods.

## Effortless Task Creation & Management

Creating tasks for clients is a breeze with Zoho Practice. Add tasks with due dates, priorities, attachments, and descriptions, ensuring your team has all the information they need to complete the job efficiently. Automate recurring tasks like bank reconciliation or periodic reviews, freeing up valuable time for more strategic work. Utilize bulk update features to manage multiple tasks simultaneously, streamlining your workflow further.

## Time Tracking & Billing

Never lose track of billable hours again. Zoho Practice's user-friendly timesheets allow you to monitor the time spent on various clients. Convert tracked hours into invoices with ease, ensuring you get paid. Provide clients with transparent time logs for validation and build trust in your billing process. Zoho Practice offers flexible billing options to accommodate your firm's specific needs, whether you prefer staff hours or task-based billing.

# Dynamic Client Customization & Integrations

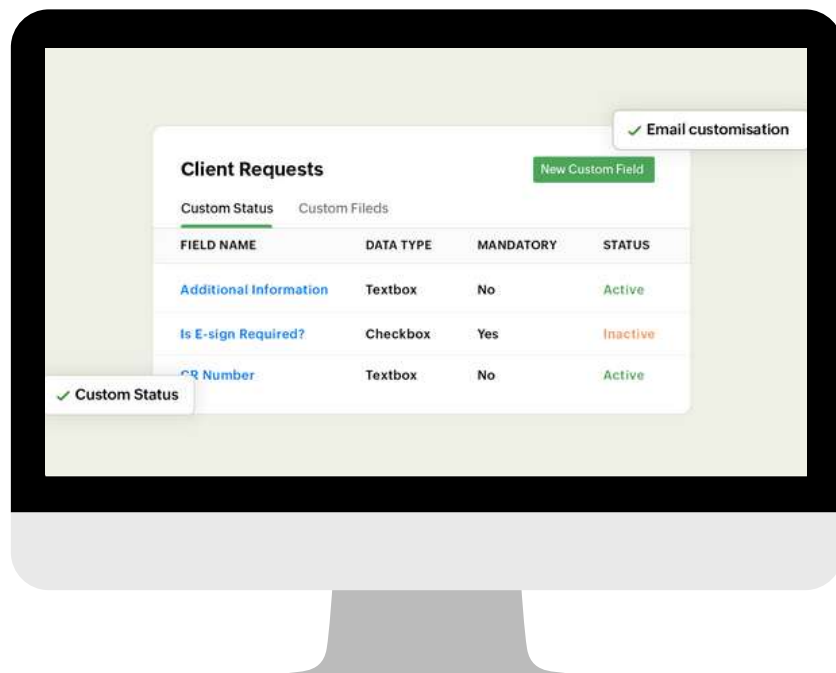

Zoho Practice isn't a rigid software program that dictates how you work. It's a platform designed to adapt to your firm's specific needs. You can choose which features to activate and customize settings to optimize your workflow.

## Personalized Experience

Imagine a small accounting firm specializing in tax preparation. They might prioritize features like secure document storage and automated client reminders. On the other hand, a larger firm with a diverse client base might focus on task management features and a seamless integration with expense software.

By tailoring Zoho Practice to your specific needs, you can:

- **Boost Efficiency:** Eliminate unnecessary steps and streamline processes for maximum productivity.
- **Improve Client Engagement:** Cater to your client's preferred communication styles and provide a more personalized experience.
- **Increase Staff Satisfaction:** Empower your team with the tools they need to work efficiently and effectively.

## Powerful Integrations

Zoho Practice integrates seamlessly with other Zoho applications, creating a robust ecosystem for your accounting practice.

- **Zoho Books:** Gain real-time access to your clients' financial data for a holistic view of their financial health.
- **Zoho Expense:** Streamline expense management for both your firm and your clients.

"The ability to invoice customers via integration with Zoho books presents an exciting opportunity for KDG to tap into a new client base. The way it tracks the tasks and time spent, provides a clear picture of the scope of the work. This approach enhances clarity and fosters positive growth in client relationships."

Beth Mickelson, Team Lead - Accounting Services, KDG

These integrations eliminate the need to switch between multiple software programs, saving you time and minimizing the risk of errors. With Zoho Practice at the center, you can manage your entire accounting practice from one central location.

## Client Automation & Improved Transparency

### Simplifying Workflows

Many accounting tasks are repetitive and time-consuming. Zoho Practice automates these tasks, freeing up your valuable time to focus on strategic initiatives and client relationships.

- **Automated Reminders:** Ensure you never miss a deadline or forget to request important information from clients.
- **Recurring Tasks:** Automate tasks like bank reconciliations or monthly reports, eliminating the need for manual setup each time.
- **Bulk Actions:** Manage multiple tasks or invoices simultaneously for increased efficiency.

By automating routine tasks, you can:

- **Increase Productivity:** Get more done in less time.
- **Reduce Errors:** Eliminate human error associated with manual data entry.
- **Improve Client Service:** Respond to client inquiries and requests more promptly.

## Activity Logs & Audit Trails

Maintaining accurate records is essential for any accounting practice. Zoho Practice ensures effortless compliance with detailed activity logs and audit trails.

- **Activity Logs:** Track every action taken within Zoho Practice, providing a complete record of your work.
- **Audit Trails:** Gain insights into who made changes, what changes were made, and when they were made.

These features offer several benefits:

- **Peace of Mind:** Know that your data is secure and you can easily reconstruct any action taken within the platform.
- **Improved Collaboration:** Facilitate seamless collaboration between team members by providing a clear audit trail of activity.
- **Informed Decision-Making:** Use activity logs and audit trails to identify areas for improvement and make data-driven decisions.

By combining client automation with improved transparency, Zoho Practice empowers you to work smarter, reduce errors, and ensure compliance.
